**Phone:** +55 (27) 99995-0879

## About me

I have 2 years of experience in developing web applications, using cutting-edge technologies such as React, Next.js, and TypeScript to create dynamic and efficient applications that meet the needs of users.

## Objective

Front-end developer.

## Experience

Freelancer - 2023 (current)

### **Fotoseek** ([Link](#))

Fotoseek is an application that allows you to download high-quality images and videos. With Fotoseek, you can easily search and save media files from various online sources.

### **Tw Palette** ([Link](#))

Create, generate colors through HEX or HSL. This tool is able to return a consistent color palette for Tailwind, CSS, Sass or JavaScript applications.

### **Youtube Catcher** ([Link](#))

Download your favorite music or videos from Youtube via link or video name and export in different types of formats.

### **Codify** ([Link](#))

Codify is a music app that allows users to listen to music locally on their PC offline.

### **Thunder Games** 2021 - 2023

Front-end developer: Creation of interfaces with HTML, CSS and JavaScript, bug fixing and assistance in interface and user experience improvements. Note: private service.
